ToxMystery Fill-in-the-Blank

Color the picture above. Use the words in the picture to fill in the blanks in the sentences below.

1. Sodium hydroxide is found in _____ to help unclog sinks and drains.
2. Mercury is found in _____ because it expands and contracts with changing temperatures.
3. A damp fungus found in damp areas indoors and outdoors is called _____.

Word Box

Pesticide

Particulate Matter

Paint Thinner

Mercury

1. I am sometimes used in devices that monitor temperature. I am silver and shiny, but have no smell. I am very toxic if you touch, breathe or taste me.

What am I? _____

2. I am used to make thick paint easier to use. I smell really bad, so if you use me make sure to open a window. I can make you very sick if you touch, breathe or taste me.

What am I? _____

3. I am small, but can cause you to cough if you breathe too much of me. You can find me in the air, as dust or pollution. Sometimes I'm so small you need to use a microscope to see me.

What am I? _____

Can you find the four hazards in this room?

Circle the hazards in the room. Draw a line from the name of the hazard to its location in the picture.
(Hint: Lead is found in two places in the kitchen)

Chlorine

Carbon
Monoxide

Lead
